WOMEN AND NEWBORNS

NURSING EDUCATION PROGRAMS

Critical Care Obstetrics Education (CCOE)

Critical Care Obstetrics Education (CCOE) will prepare clinicians to identify high-risk and critically ill patients who need treatment, stabilization, or transfer to a higher level of care.

awhonn.org/CCOE

Fetal Heart Monitoring Program (FHM)

97% of students who participated in AWHONN's FHM program stated it improved their ability to care for patients.

Courses to educate you on the specialized skill of fetal heart monitoring.

- Introduction to Fetal Heart Monitoring (self-paced online course)
- Intermediate Fetal Heart Monitoring Course (online prerequisite education is required prior to attending the one-day instructor-led course.)
- Read Between the Lines Fetal Monitoring Series
- Advanced Fetal Heart Monitoring Course (one-day instructor-led course)
- Virtual live courses and online self-paced learning, including case scenarios and fetal monitoring tracing reviews

awhonn.org/FHM

Maternal Fetal Triage Index Education Course (MFTI)

The MFTI program defines what obstetric triage means, defines the nurse's role in triage, and provides a systematic approach nurses can use to improve patient outcomes.

Register for the MFTI education course and buy the toolkit!

Neonatal Orientation and Education Program (NOEP)

AWHONN's Neonatal Orientation and Education Program (NOEP) is designed to provide nurses with the theoretical knowledge needed to deliver holistic, family-centered care in neonatal settings. Content included in the program is appropriate for new graduate nurses and nurses who are experienced, but new to the neonatal care setting.

- Narrated modules for instructor-led or self-directed study
- Case scenarios to engage the learner in knowledge application and critical thinking

(46) Seats at \$4,950
(21) Seats at \$2,475

awhonn.org/NOEP

Obstetric Patient Safety: OB Emergencies Workshop

Use multidisciplinary simulation-based training to identify, reassess, and manage the care for patients with specific obstetric emergencies. *Prerequisites required.*

awhonn.org/OPS

OB Triage Education (OTE)

Even for birthing patients who are expecting a trip to the hospital, communicating their symptoms can be challenging. The Obstetric Triage Education course serves as an essential resource in orienting triage nurses to quickly identify symptoms and prioritize treatment.

Perinatal Bereavement

NEW!

Perinatal bereavement care requires giving compassionate and respectful attention to families experiencing loss. The Perinatal Bereavement Certificate program includes nine mini modules that provide a holistic approach to understanding the perspectives of grieving, managing protocols, and supporting your team members as they work with patients through this process. At the end of the program, you will receive a certificate of completion and nursing contact hours.

Perinatal Orientation and Education Program (POEP)

When you are seeking a standardized approach to perinatal education for new or experienced nurses, POEP is all you need to provide evidence-based care for prenatal, pregnant, and postpartum people and newborns.

- Narrated modules with instructor-led and self-directed study
- Case scenarios to engage the learner in knowledge application and critical thinking

(46) Seats at \$4,950
(21) Seats at \$2,475
